Onyx Data Solutions adds to IT leadership team, welcomes Arthur Lever as Director of Information Technology - Operations

CANTON, MA (September 25, 2019) - Onyx Data Solutions, an information technology consulting company, welcomes Arthur Lever, MBA, PMP® as Director of IT - Operations to the organization. Mr. Lever brings over twenty years of experience in information technology across a wide variety of business areas. Most recently, he set the IT vision, strategy and managed IT operations for a behavioral care organization in the role of Director of IT. At Onyx, Mr. Lever will lead the IT operations team and implement the strategic technology initiatives customized across Onyx's client portfolio.

"I am thrilled to be working with the broad range of talent at Onyx Data Solutions and look forward to leading the IT team in addressing client business needs through technical solutions," said Mr. Lever.

About Onyx Data Solutions:

Onyx Data Solutions strives to solve its clients' technology challenges so they can focus on their core business. Founded in 2011 in Cheyenne, Wyoming, Onyx builds long term partnerships with insurance carriers, TPAs, and human resource teams, and helps these organizations leverage technology to achieve their business goals, maximize business performance and accelerate growth.

Using decades of experience, the Onyx team brings forward thinking ideas and fluency in both business and technology to offer IT tailored solutions ranging from program building to strategic planning, implementation and solution delivery, security consulting and data management. Onyx operates nationally and includes offices in Canton, Massachusetts, Denver, Colorado, Omaha, Nebraska, Cheyenne and Laramie, Wyoming.
