Onyx Data Solutions names Mikaela Pappas Chief Operating Officer

CANTON, MA (November 25, 2019) - Onyx Data Solutions, an information technology consulting company, promoted Mikaela Pappas to Chief Operating Officer.

In addition to joining Onyx's executive team, Pappas will lead the day-to-day operation of all service teams working on Onyx's client accounts.

In her position as Senior Vice President – Operations, Pappas was instrumental in ensuring that Onyx's operational procedures were sustainable, offering strategic vision to aid growth, and providing guidance to the Operations team.

Pappas has been with Onyx Data Solutions for 4 years and brings with her a unique combination of experience in system analysis and design, and content expertise in voluntary benefits. She holds a B.A. degree in Economics from Bates College and is currently pursuing her MBA at Babson College.

"Mikaela's excellent leadership, problem solving, and vision, complemented by her strong background in the insurance and technology industries, is exactly what Onyx needs to deliver exceptional services to our customers" said CEO, Dan Blaney.

About Onyx Data Solutions:

Onyx Data Solutions strives to solve its clients' technology challenges so they can focus on their core business. Founded in 2011 in Cheyenne, Wyoming, Onyx builds long term partnerships with insurance carriers, TPAs, and human resource teams, and helps these organizations leverage technology to achieve their business goals, maximize business performance and accelerate growth.

Using decades of experience, the Onyx team brings forward thinking ideas and fluency in both business and technology to offer IT tailored solutions ranging from program building to strategic planning, implementation and solution delivery, security consulting and data management. Onyx operates nationally and includes offices in Canton, Massachusetts, Denver, Colorado, Omaha, Nebraska, Cheyenne and Laramie, Wyoming.
